EDUCATION

CORNELL UNIVERSITY, SC JOHNSON COLLEGE OF BUSINESS **Ithaca, NY**
THE CHARLES H. DYSON SCHOOL OF APPLIED ECONOMICS AND MANAGEMENT *Expected May 2029*
Candidate for Bachelor of Science in Applied Economics and Management, Minor in Artificial Intelligence
Honors: KKR Accelerator Scholar 2026, Dyson Scholar (top 10% of academic class) 2026 | GPA: 3.53
Relevant Coursework: Spreadsheet Modeling, Linear Algebra, Math Foundations of CS, Finance, Financial Accounting, Statistics
Activities and Societies: Entrepreneurship Club - Co-President; Cornell Venture Capital - Analyst; Armada - Builder; SABA

EXPERIENCE

LOADSTONE LABS **Ithaca, NY**
CEO & Co-Founder *Feb 2026 – Present*
- Run a data platform for Western U.S. water rights that unites rights workflow, basin intelligence and transaction infrastructure
- Architected a pipeline ingesting 132,000+ live water-rights records a day from 44 Colorado counties into one unified schema
- Secured venture backing and grants from AWS and LvlUp Ventures by sizing the market and building a unit economics model

EXL **New York, NY**
Consulting Intern *Jul 2026 – Sep 2026*
- Supported an eight-figure book of Fortune 100 client contracts, tracking scope, deliverables and renewal terms across accounts
- Built a custom CRM tool that replaced manual contract tracking and centralized account status for the full client services team
- Managed client and contract data in Salesforce, produced executive-ready PowerPoint decks for global cross-functional teams

MIDIAN PARTNERS **Remote**
Operations & Strategy Intern *Jun 2026 – Jul 2026*
- Grew an early-stage mortgage fintech's lender network from 6 to 25+ partners in under five weeks as revenue increased 310%
- Negotiated with partner executives, building a 14-agreement comparative dataset to counter an above-market recapture clause
- Led a build-vs-buy evaluation of a core data integration on architecture, coverage and liability terms, saving an estimated $25K

ADOBE **Remote**
AI Strategy Consultant (Contract) *Jan 2026 – Apr 2026*
- Advised on AI product and client strategy for $1M+ enterprise contracts, presenting business cases to a Fortune 500 IT C-suite
- Proposed business cases for the enterprise suite now in beta testing, translating emerging AI capability into deployable features
- Built market sizing frameworks, UX benchmarks and positioning analyses locating where AI could displace existing workflows

IDLEXPERTS (FORMERLY WIDGET FACTORY) **Remote**
Problem Design Engineer *Jan 2026 – Apr 2026*
- Designed six real-world problem sets used to evaluate frontier AI models, building environments that isolate reasoning failures
- Benchmarked agent behavior and task completion across environments, turning observed failure patterns into task design fixes
- Consolidated engineer feedback into shipped changes to the model training and execution environments used in production

LEADERSHIP

CORNELL ENTREPRENEURSHIP CLUB **Ithaca, NY**
Co-President *Sep 2025 – Present*
- Run a speaker series bringing Paul Graham, Scott Nolan, Cory Levy and Tony Dang to campus for audiences of 150+ per talk
- Grew the club's reach to 500,000+ across Instagram and LinkedIn, with 150,000+ reel views and 350,000+ post impressions
- Scout and evaluate student-led startups across technical verticals, building investment theses and operating strategies for each

ARMADA **Ithaca, NY**
Builder *Jan 2026 – Present*
- Built bigred.network, a hand-reviewed directory of 65 Cornell founders and builders with member filtering and network graph
- Led technical projects across an AI-native product suite at a YC-backed community, partnering with VCs at $200M+ AUM
- Engineered experimental systems spanning drone synchronization, ML applications, code optimizers and full-stack platforms
